It is with some urgency that Woman Stands Shining, Pat McCabe, of the Dine (Navajo) Nation offers this day of sharing regarding the significance of the Feminine at this time. The future that many are working towards cannot be achieved without the understanding of what the Feminine role really means and has always meant. Understanding the Honor of the *Embodied Divine Feminine* is foundational for true and lasting Sustainability. We are the keepers of the Cradle of Life for our Kind. Many of the answers to our questions lie within our physiology, microcosm to the macrocosm. We are designed to give life and to support and provide direction

and leadership for ***Thriving Life*** in home and community.

Please join us for a day of direct teaching, Talking Circle and ritual, remembering who we are and how we are all related from the seat of the Feminine.
